

## Single use RFID wristband

BrightCard's single-use RFID wristband combines the latest RFID technology with an economical, easy-to-use carrier. They can be used only one time and they are perfect for sports events, amusement parks, concerts, festivals, or exhibitions. They are available with either ISO 15693 or ISO 14443 (13,56MHz). They are built with highly advanced antenna and assembly technologies.

The single use RFID wristband is designed for single use access control applications. The electronic tag is hermetically sealed, which makes this wristband waterproof. The single use RFID wristband is available in four colors, and can also be printed.

### Product specification:

<b>Dimensions:</b>	60 x 20mm
<b>Wristband:</b>	252 x 30mm
<b>Material:</b>	PVC
<b>Colors:</b>	White, Blue, Green, Pink
<b>Operating frequency:</b>	13.56MHz
<b>Operating distance:</b>	Up to 5cm
<b>Humidity resistance:</b>	IP 67
<b>Application temp.:</b>	- 5°C to 60°C
<b>Storage temp.:</b>	- 5°C to 60°C

### Available 13,56MHz modules:

IC Type	ISO	Memory	Anticollision	Antenna	Order No.
Philips Mifare 1	14443A (1-3)	1024 byte	Yes	etched	WB-WF3-MFS50
Philips Mifare UL	14443A (1-3)	512bit	Yes	etched	WB-WF3-MFUL
Philips I-Code 2	15693	1024 bit	Yes	etched	WB-WF3-ICSLI
