

Product Datasheet

Desktop Reader/Writer “AXR200” - ISO15693

The BrightCard desktop USB reader allows the management (reading and writing) of all common ISO15693 transponders. The USB interface allows it to be easily attached to any PC.

The AXR desktop reader has a particularly aesthetic design, with an illuminated frame which lights up during the read process.

A full-featured SDK is available to allow the integration of this reader into desktop and networked applications.

Applications:

- Encoding
- Programming
- Point of Sales

Product specification:

Interface:	USB
Integrated antenna:	Yes
Operating system:	Windows
Power supply:	5Vdc/60mA – Bus-self powered
Signals:	Multi colour LED illuminated frame
Reading distance:	Up to 12 cm (depending on version and type of transponder)
Operating temperature:	0 °C ...+50 °C
Dimensions:	125 x 70 x 27mm
Material:	ABS
Housing Color:	White or black

Desktop Reader Versions:

Desktop Readers:	Supported transponders:	Order number:
ISO15693	ISO15693 transponders	R-DT-15693-USB (USB version)
